

**Mulligan Concept Manual Therapy 2024 organized by Virtus Medical Group**

Mulligan Concept on manual therapy was firstly developed by experienced physiotherapist Mr. Brian Mulligan in New Zealand. The simple yet effective manual approach has been taught internationally since 1984 and practiced by physiotherapists and manual therapists with good reputations over decades. Two sessions of two-day classes will cover upper and lower quadrant of the body with theory and practical activities. Participants like medical doctors, physiotherapist, chiropractors, Chinese medicine practitioners, sports therapists, and strength-conditioning trainers will find the course helpful to help clients with musculoskeletal problems, functional dysfunctions, and pain. This course will be instructed in Cantonese with English medical terms.
