Cardiopulmonary Course (Level 1 and Level 2): Basic Electrocardiogram and Chest X-ray Interpretation for Physiotherapy

Instructors Bio

Mr. Eyckle Wong graduated from the Hong Kong Polytechnic University in 1994. He has worked as a Registered Physiotherapist in public and private settings for more than 25 years. He specialized in cardiopulmonary, gerontology and palliative area. He has also had extensive experience in disease group exercise management, e.g. cardiac rehabilitation, pulmonary rehabilitation, diabetes exercise management, weight reduction program, physical fitness program and palliative rehabilitation care.

He has been invited to present talks in relation to physiotherapy and exercises for the public and for professional bodies. He has also acted as a visiting lecturer in local universities previously.

Aging population is the key issue in Hong Kong. He shows a strong professional interest to contribute in the service development in gerontology and palliative care.

Mr. Raymond Lo obtained Professional Diploma in Physiotherapy from the Hong Kong Polytechnic University and a master's degree in Public Health from the Chinese University of Hong Kong. He worked as clinical physiotherapist in the public hospital for 25 years and covered different specialties including emergency medicine, intensive care, medicine & geriatrics, orthopaedic and traumatology, neurology, surgery and infirmary. His professional interest is in the field of neuro-rehabilitation especially stroke conditions. Prior to joining Tung Wah College, he worked as Clinical Associate in Physiotherapy in the Hong Kong Polytechnic University for 10 years.

He had served as the Chairman of the Neurology Specialty Group of the Hong Kong Physiotherapy Association for 10 years and he is also the Founding Fellow of the Hong Kong College of Physiotherapy.
